

# Winegrower's Recommendation

## Winery Horst Sauer, Escherndorf (Franconia)

### Endeavour to the perfect wine.

»Great things are achieved with courage, greater with love,  
the greatest with patience.« (Peter Rosegger, 1843 - 1918).

Initially, great wines develop in in one's head.

With much attention, Horst Sauer observes the nature, and every year is different. Things already experienced change the view and the ways of action. You have to be clear about the exertion of influence you choose to guide, improve, strengthen, and the limits where guiding ends in manipulation. Every wine has only one spring, one summer, one autumn and one period to mature. To become aware of this fact means to exercise patience. Only the one who has a vision, will find the way to the goal.

The pleasure of enjoyment is the joy of life. Wines for personal wishes, individual occasions and the special moments that just do not happen everyday. Horst Sauer tries to create such wines and make the diversity of nature shine in the glass. He received the acknowledgement for being on the right track when he was rewarded **“Winegrower of the Year” by Gault & Millau in 2018.**
